

June 6th, 2017
ESC Conference of dissemination
Münster, Germany

Dr. Tamas Molnar - Humboldt University of Berlin

The Berlin Campuscard System

Dr. Tamas Molnar
Humboldt-Universität zu Berlin
Berlin, Germany

An Alliance of Universities

The Campuscard Alliance

110 000 Students

2500 Cards

8000 Cards

Testing

11000 Cards

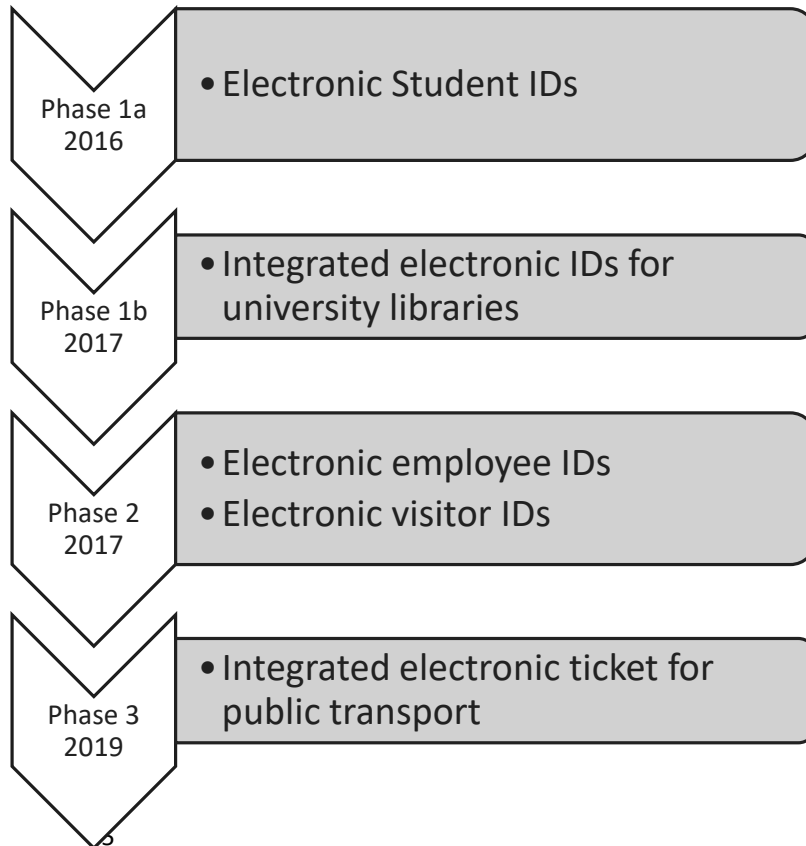

12000 Cards

Testing

Overview

- Mifare DESfire EV1 cards
- 25 mm TRW strip
- Photo and barcode for library use

The Process

QR-code – received
(electronic or postal
delivery)

Card - received
Through the terminal
(20 terminals in Berlin)

Card - validated
Through TRW kiosk
(30 kiosks in Berlin)

System Components

Mifare DESfire EV1 4K 70pF cards

- Blank with the university layout and deployed cafeteria application

Card Print Terminals

- Self service terminals with integrated photo station and card printer

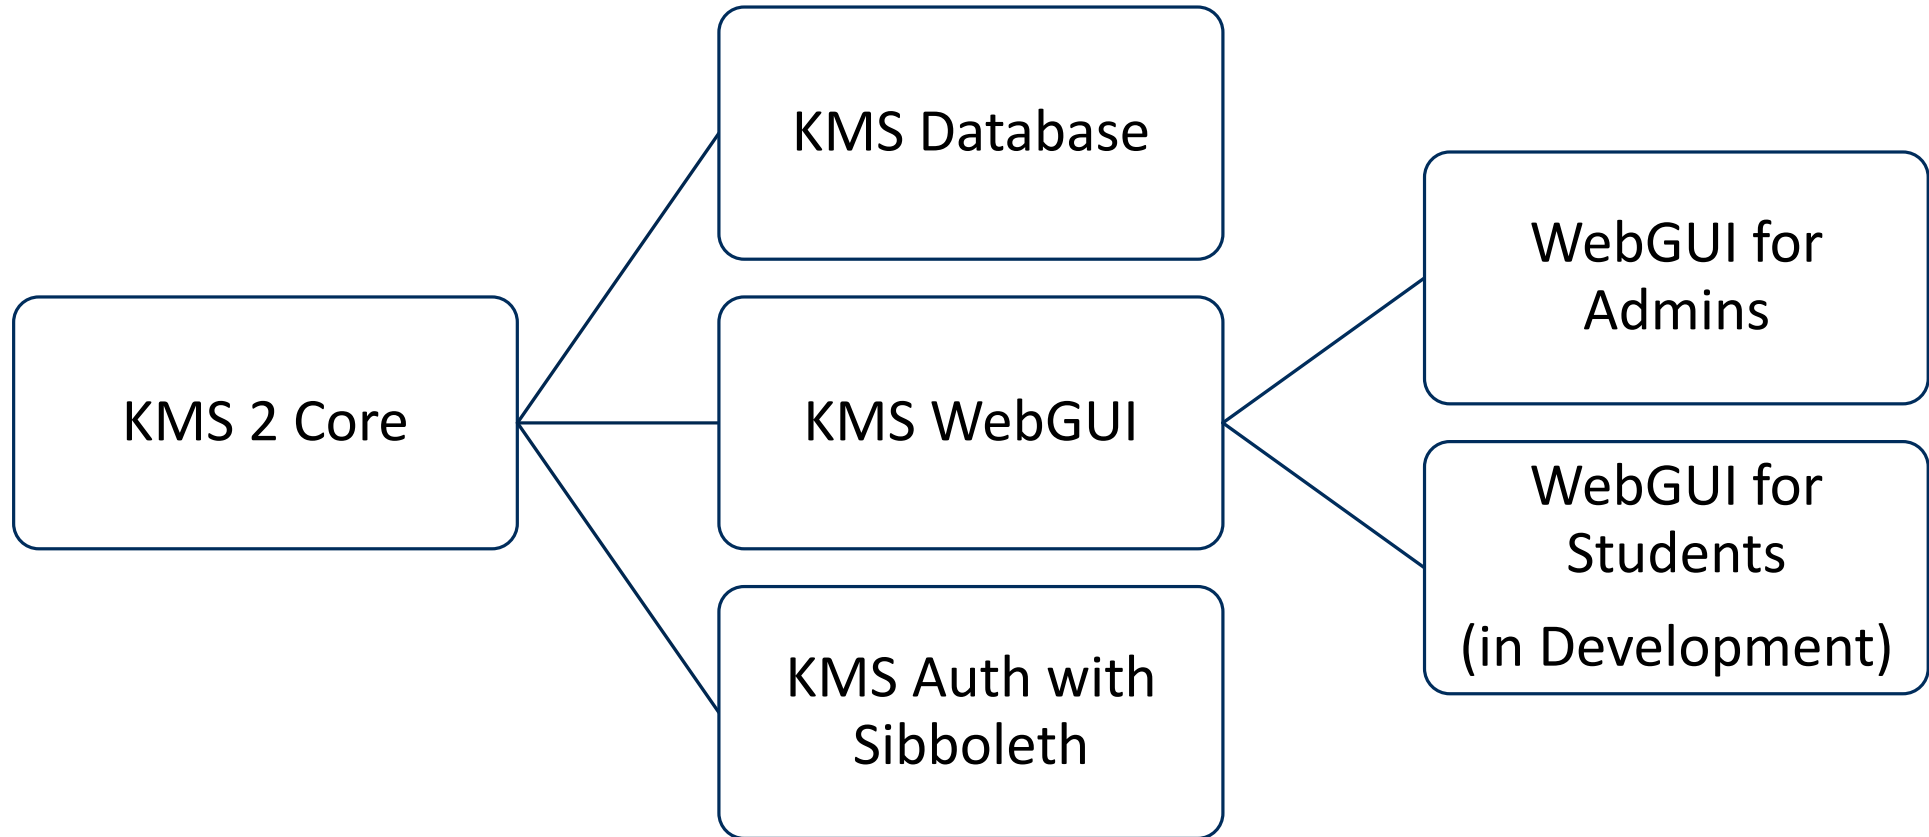

TRW-Kiosks

- Self service kiosks with integrated TRW-printer

Card Management Software and WebGUI

- Universal solution for different data sources

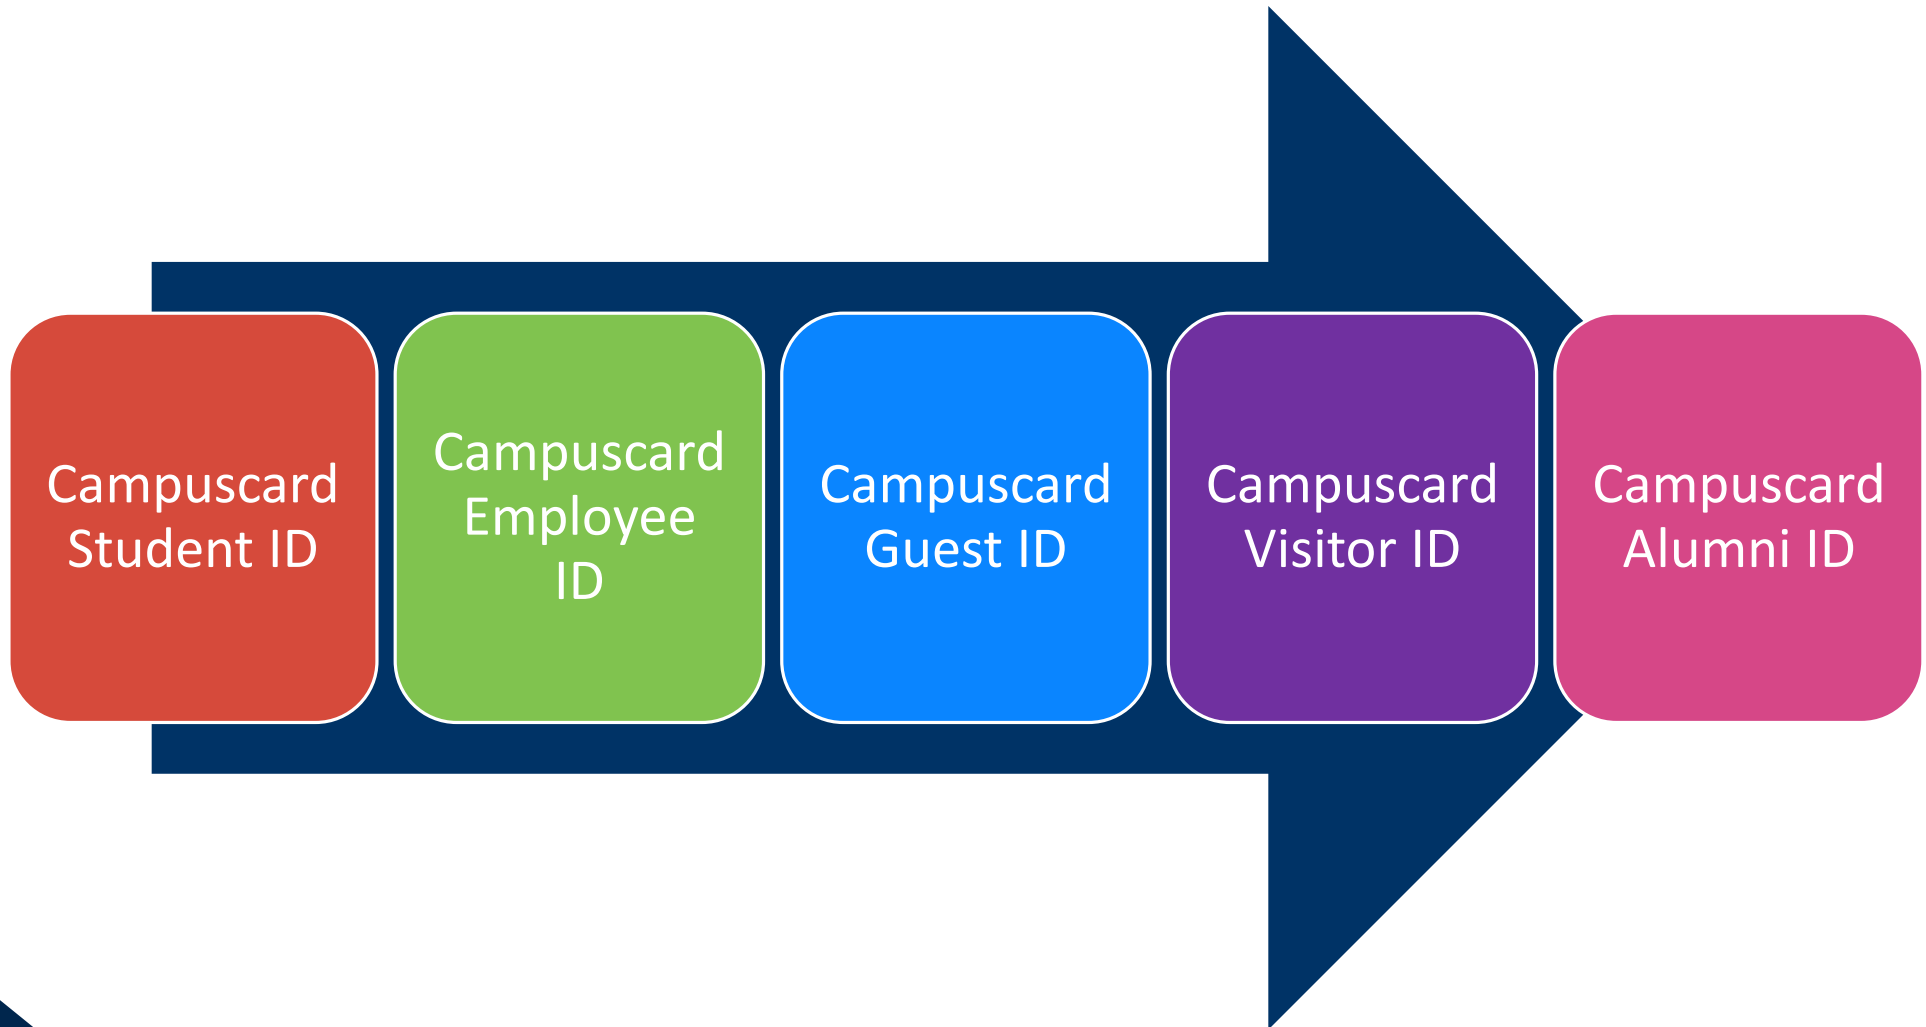

The KMS2

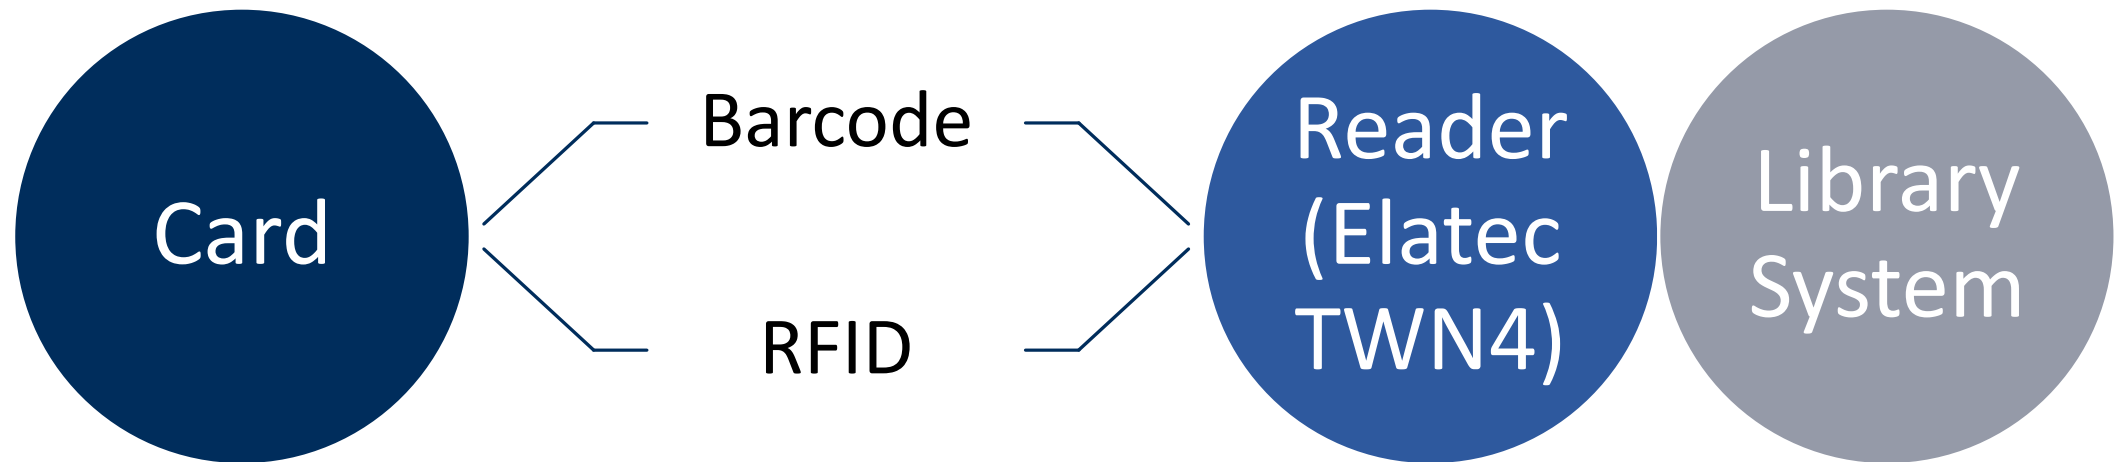

What's inside?

The Future

RFID Identification in the Libraries

The Innovation

Campuscard

- Library ID from home HEI in Chip

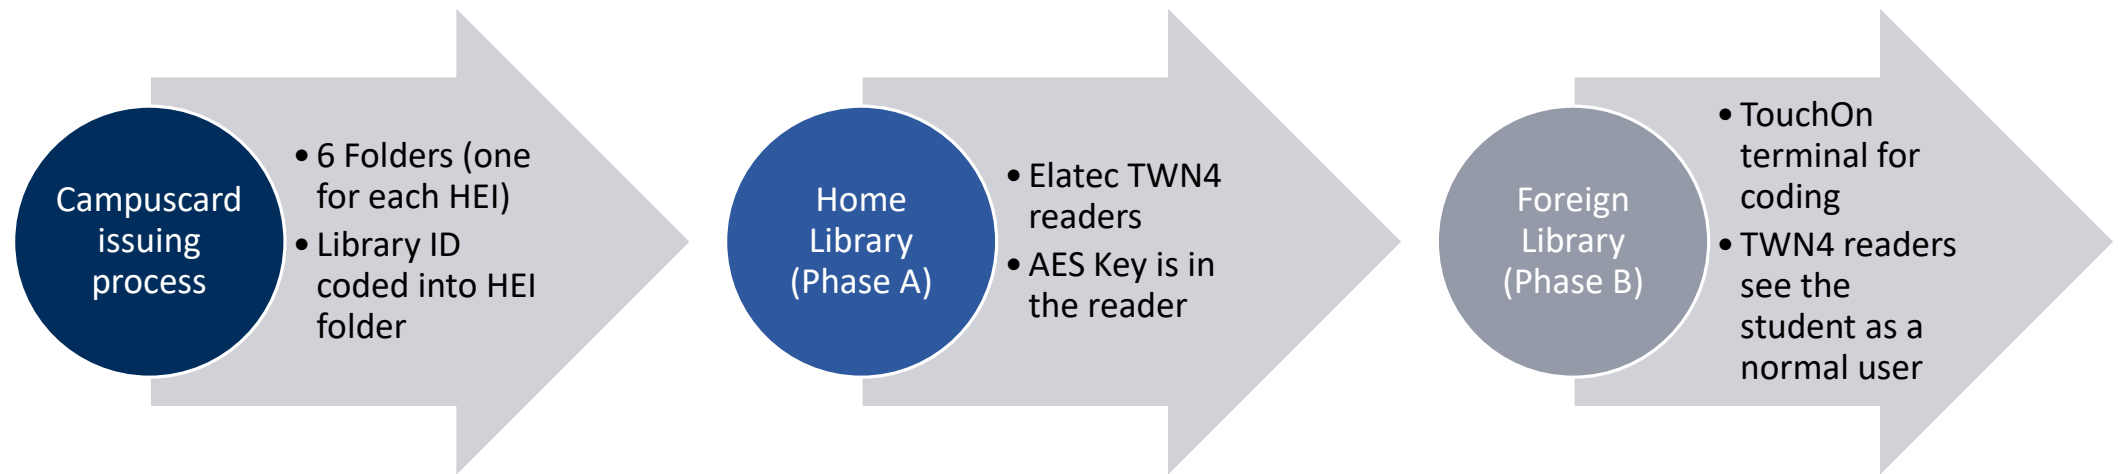

RFID Identification in the Home Library

- Intelligent RFID readers with communication through keyboard buffer
- No modification need for library systems

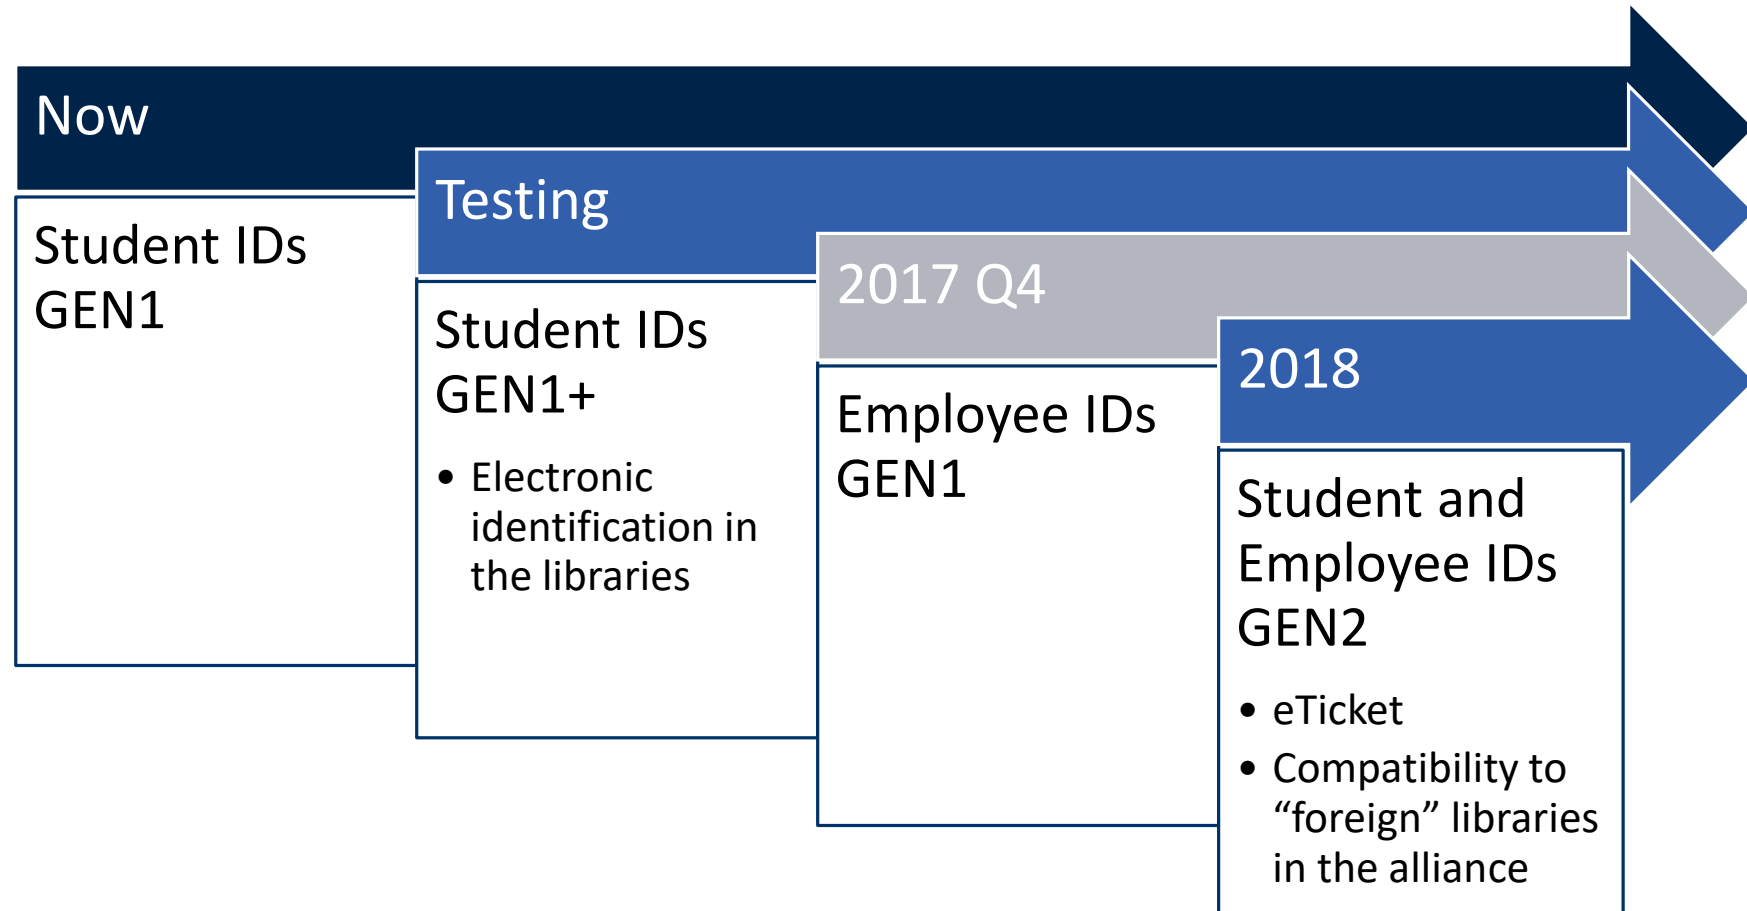

TouchON Terminal in the Foreign Library

- Card is registered at foreign HEI
- Data of the student transferred from home to foreign library
- Student can use his home card at the foreign library

How does this work?

Schedule - Extensions

Thank you
